

# BluOcean™ 8-In-1 1U GPRS Modem

BluOcean™ popular range of World-class standard GSM and GPRS modems are widely used by corporations and software houses across the world. To ensure quality and speed maximization, only top quality chipset from France WAVECOM WISMO™ (World No 1 Provider of Integrated Wireless Modules) is used in the BluOcean™ modems.

Complies with  
 IDA Standards  
 DB103815

### Technical Specification

- SIM card holder integrated
- 3V SIM Interface
- Activity Status LED Indication
- Power Output: Class4 (2W @ EGSM 900/GSM 850)  
Class1 (1W @ GSM 1800/1900)
- Normal operation temperature: -20 to 55°C
- Operating Voltage : 5 to 25 VDC
- Typical idle mode supply current: 5mA
- Baud rates: 300-115200 bits/s
- Compliant with ETSI GSM Phase 2 +
- Control via AT commands (GSM07.07 & 07.05)
- GPRS Coding Scheme: CS1, CS2, CS3, CS4

### Design

- Serial RS232 DB62 (62pin)
- Metal Casing
- Weight 3.5kg With Standard 1U Size

### SMS / MMS Specification

- Text and PDU mode
- Cell broadcast
- Point to Point MO and MT

### Fax Specification

- Group 3 (Class 1,2)

### Supported Operating System

- Windows 2000, NT, XP, Vista,  
Linux (Kernel 2.0.x , 2.2.x , 2.4.18 ,  
2.4.19 , 2.4.20)

### Included Accessories

Power Adaptor

Serial Cable

Multiport Serial PCI

8 Antennas

Type	Frequency	Coverage	Model
GPRS Quad Band	GSM 850/900/1800/1900 MHz	Worldwide	GPRS-1U-W9

**World No 1 Integrated Wireless Modules Embedded - Wavecom WISMO™**

**Connect using power cable. Suitable for desktop pc users !**
